LOC: 273 Federal Bldg.

PLEASE CHECK (✓) REPORTS DESIRED AND RETURN:

Please indicate: _____ 002 - Farm or Ranch Operator; _____ 003 - Other

_____ 999 NEBRASKA AGRI-FACTS

Issued twice monthly, this newsletter features highlights of reports released during the previous two weeks on crops, livestock, prices and related subjects directed toward Nebraska agricultural interests.

_____ 911 CROP-WEATHER

Covers weather, precipitation, crop and livestock conditions. Issued weekly Apr.-Nov. and monthly Dec.-Mar.

SPECIAL REPORTS

The following individual reports are issued for those that have need for detailed Nebraska information. Others should subscribe only to NEBRASKA AGRI-FACTS for highlights of all reports.

MONTHLY & QUARTERLY

_____ 111 CROP PRODUCTION (Monthly)

State and District forecasts for major grains. Issued June-Nov.

_____ 411 CATTLE ON FEED (Quarterly)

Quarterly inventory by class and weight groups, intentions to market next quarter in 23 major States. Issued Jan., Apr., July, Oct. Monthly and quarterly highlights covered in Nebraska Agri-Facts.

_____ 421 HOGS & PIGS (Quarterly)

Inventory estimates, sows farrowed, sows to farrow, pig crop and breeding intentions. Issued Mar., June, Sept., Dec.

PERIODIC

_____ 112 CROPS

Acreage Intentions--Mar., June
Small Grains & Fall Seedings--Dec.
Row Crops & Hay--Jan.
Annual Crop Summary--Jan.

_____ 413 CATTLE & CALF CROP

Cattle inventory and calf crop. Issued Jan., July.

ANNUAL (SPECIAL REPORTS, CONTINUED)

_____ 115 WHEAT VARIETIES most commonly planted as percent of total. Issued Feb.

_____ 116 SOYBEAN VARIETIES most commonly planted as percent of total. Issued Feb.

_____ 492 ANNUAL LIVESTOCK SUMMARY--Production, Disposition and Income

Summary of all major species of livestock estimates. Issued Feb. Inventory, inshipments production, marketings, prices and value by species and cash receipts from livestock marketings. Issued Apr.

_____ 511 ANNUAL MILK PRODUCTION, DISPOSITION & VALUE;
512 MANUFACTURED DAIRY PRODUCTS

Annual milk production estimates, utilization and total value of milk production. Annual utilization of milk sold for manufacturing. Issued May and June.

_____ 712 FARM INCOME

Cash receipts from farm marketings, government payments and other farm income, farm expenditures and net income. Issued April.

REPORTS WITH LIMITED DISTRIBUTION

_____ 914 PRELIMINARY COUNTY ESTIMATES

Preliminary crop and livestock county estimates for the past year. Issued May.

_____ 917 DERIVED FEED GRAINS FED BY COUNTY

Corn equivalent of feed grains produced and fed to livestock by county. Issued July.

_____ 931 FARMLINE

A magazine from USDA with articles on current trends in agriculture and economic, marketing and research developments affecting farmers. Issued monthly. Distribution to Nebraska voluntary reporters ONLY.

_____ 915 NEBRASKA AGRICULTURAL STATISTICS

Summaries of all Nebraska and county statistics collected and other selected data. Issued July.

FOR ADDITIONAL INFORMATION CONTACT: JACK L. ASCHWEGE, STATE STATISTICIAN, (402) 471-5541.

Nebraska Agricultural Statistics

ANNUAL REPORT 1979 - 1980

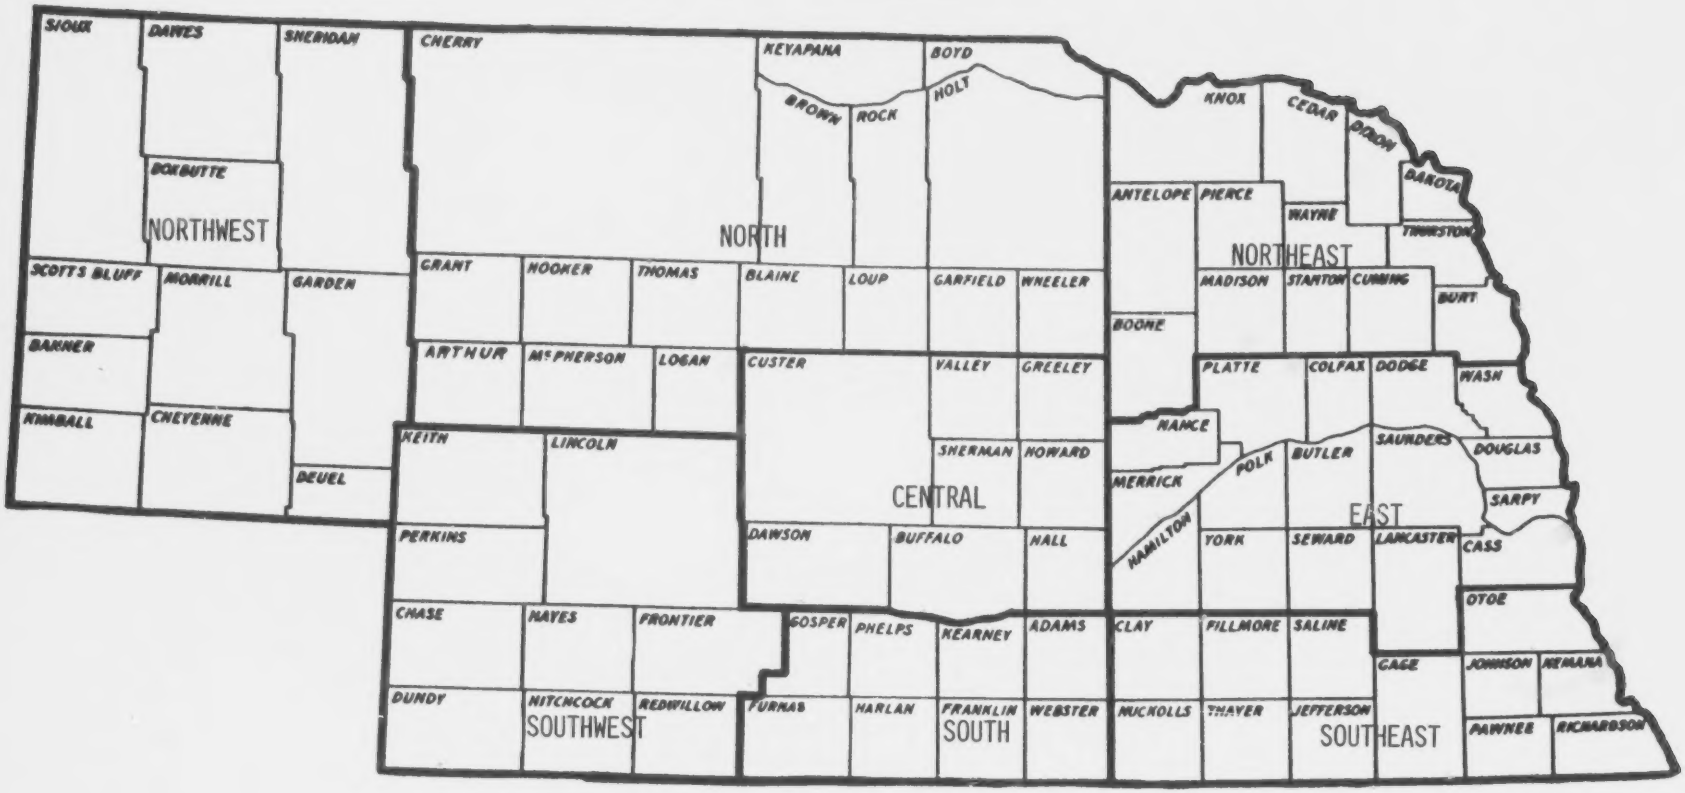
NEBRASKA DEPARTMENT OF AGRICULTURE
Bert J. Garvin, *Director*
Richard Maresh, *Deputy Director*

Cooperating with
UNITED STATES DEPARTMENT OF AGRICULTURE
Statistical Reporting Service
W. E. Kibler, *Administrator*

Issued July 1981, by the
NEBRASKA CROP AND LIVESTOCK REPORTING SERVICE
Jack L. Aschwege, *State Statistician*
William C. Dobbs
Assistant State Statistician

The material for this publication was assembled by Charlotte R. Rowe, Editorial Assistant.

NEBRASKA CROP REPORTING DISTRICTS



PREFACE

Information in this statistical summary of Nebraska agriculture is the result of thousands of voluntary reports from farmers, ranchers and agribusiness firms. Much of the detail needed for county estimates was collected from farmers and ranchers by mail with the Annual Agricultural Survey and acreage surveys. County extension staff, local lending institutions and the National Weather Service have also contributed through weekly reports on weather and crops. Cooperation of other State, University and USDA agencies is also appreciated.

The Nebraska Department of Agriculture and the United States Department of Agriculture cooperate in collecting and compiling these agricultural statistics. Under this cooperative agreement, the Nebraska Crop and Livestock Reporting Service publishes over 250 statistical reports annually.

Livestock and number of farms estimates were prepared by Dennis Johnson. Crop estimates were prepared by Rudy Wagner and Scott Keller. Jim Stepanich and Mark Aitken were responsible for poultry, prices and farm labor estimates. Paul Zuttermeister and Rex Patterson were responsible for much of the data collection activity including summarization of the Annual Agricultural Survey. Computer programmers and system design staff of Ed Baldridge and Stan Schmidt played an important role in processing regular monthly reports and other State Department of Agriculture activities. Bill Dobbs supervised the technical staff, reviewed estimates and book contents.

The organization and tabular material were prepared by Mrs. Charlotte Rowe, who also coordinated the typing, assembling, proofreading and checking of this book. Many other hours of tedious checking and proofing were accomplished by the clerical staff.

To request current reports issued during the year or copies of this report write Bert J. Garvin, Director, Nebraska Department of Agriculture, 4th Floor 301 Centennial Mall South, P.O. Box 94947, Lincoln, Nebraska 68509, or Jack Aschwege, State Agricultural Statistician, P.O. Box 81069, Lincoln, Nebraska 68501.

NEBRASKA—RANK IN AGRICULTURE

RANK:	
1st	Great Northern beans production, 1980. Cwt.--1,665,000.
1st	Alfalfa meal production, 1980. Tons--639,300.
1st	Popcorn production, 1980. Pounds--179,950,000.
2nd	Fed cattle and calves marketed, 1980. Number--3,825,000.
2nd	Sorghum silage production, 1980. Tons--665,000.
2nd	Cattle on feed, January 1, 1981. Number--1,640,000.
2nd	Commercial cattle slaughter, 1980. Number--5,611,600.
2nd	Commercial livestock slaughter, all species, 1980. Thousand lbs.--7,250,747.
3rd	Sorghum grain production, 1980. Bushels--121,800,000.
3rd	All cattle and calves, January 1, 1981. Number--6,950,000.
4th	Value of all cattle and calves on farms, January 1, 1981--$3,127,500,000.
4th	Corn for grain production, 1980. Bushels--603,500,000.
4th	Cash receipts from all livestock marketings, 1980. $3,872,598,000.
4th	Pinto beans production, 1980. Cwt.--915,000.
4th	Land in farms and ranches, 1980. Acres--47,700,000.
4th	Beef cows and heifers that have calved, January 1, 1981. Number--2,069,000.
5th	Dry edible beans production, 1980. Cwt.--2,580,000.
5th	All hay production, 1980. Tons--7,083,000.
5th	Winter wheat production, 1980. Bushels--112,100,000.
5th	Capacity of commercial grain storage facilities, January 1, 1981. Bushels--540,520,000.
5th	Sheep and lambs on feed, January 1, 1981. Number--100,000.
5th	Corn silage production, 1980. Tons--6,843,000.
5th	Alfalfa hay production, 1980. Tons--5,033,000.
5th	Cash receipts from farm marketings, 1980. $6,441,642,000.
6th	Commercial hog slaughter, 1980. Number--4,581,000.
6th	Calves born, 1980. Number--1,970,000.
6th	All hogs and pigs, December 1, 1980. Number--3,900,000.
6th	Pigs saved, 1980. Number--6,290,000.
6th	Sugar beets production, 1980. Tons--1,777,000.
6th	Harvested acreage, principal crops, 1980. Acres--19,025,000.
6th	All other hay production, 1980. Tons--2,050,000.
6th	Value of principal crops produced, 1980. $3,917,377,000.
7th	All wheat production, 1980. Bushels--112,100,000.
7th	Honey production, 1980. Pounds--7,680,000.
9th	Rye production, 1980. Bushels--468,000.
9th	Oats production, 1980. Bushels--15,170,000.
9th	Value of farm real estate, 1980. $25,621,000,000.
9th	Cash receipts from crops, 1980. $2,569,044,000.
10th	Soybean production, 1980. Bushels--53,100,000.
27th	Barley production, 1980. Bushels--950,000.

Crops

CROP REVIEW

By Rudy Wagner

Nebraska's 1980 production index for all crops was down 16% from the record high established for 1979. Total acreage harvested at 19.0 million acres increased over 800,000 acres from a year earlier, but yields averaged much lower because of the hot weather and drought.

The yield index was 17% below the record high for 1979 while the acreage harvested index for major crops was up 4%. Most crop yields in 1980 were sharply lower than the last two years. However, production was record high for dry edible beans, sugar beets and popcorn. Record large acreages harvested were set for irrigated corn for grain, soybeans, dry edible beans and popcorn. Record high yields were reported for potatoes and sugar beets, which are primarily grown in western Nebraska on irrigated land, and wheat yields were the best since 1972.

Statewide, precipitation during calendar year 1980 was 23% below normal. All districts were below normal for the year with the Northeast showing the greatest percentage decline followed by the Central District. The Southwest showed the least decline followed by the South Central District. Precipitation statewide was higher than normal for January through March, August and October and lower for the remaining months. August showed the greatest increase while June, July and September showed the most departure below normal.

The 1980 winter wheat crop was seeded at about the normal time. However, dry soils slowed germination and development in most areas until widespread, generous precipitation occurred during late October. Progress of the crop was favorable during late fall and with a favorable winter, very little winter kill was experienced. In the spring, the crop progressed well under mostly favorable conditions. Hot, humid weather beginning in late June did speed maturity causing some yield loss in all areas but yields averaged 38 bushels per acre, the best since the record high of 42 bushels was established in 1972.

Dry topsoil conditions at planting time slowed germination and hindered effectiveness of herbicides for most row crops. Rains arrived in late May and during the first half of June. Extremely hot and dry conditions followed until mid-August when the best rains of the growing season occurred. This particularly boosted rather poor prospects for soybeans and sorghum. Insect activity was high with large numbers of chinch bugs in southeastern sorghum fields, grasshoppers in north central counties, spider mites in the south and corn borers in the eastern two-thirds of the State. Dry fall weather hastened crop maturity and produced one of the earliest and quickest harvests on record. Corn grown under irrigation accounted for 70% of the total acres harvested for grain in 1980 and 83% of the corn grain production.

1980 CROP PRODUCTION HIGHLIGHTS & COMPARISONS WITH 1979

Corn for Grain	-- 603.5 million bushels	- down 27%
	7.1 million acres	- down 1%
	85 bushels per acre	- down 30 bushels
Soybeans	-- 53.1 million bushels	- down 3%
	*1.77 million acres	- up 10%
	30 bushels per acre	- down 4 bushels
Winter Wheat	-- 112.1 million bushels	- up 29%
	2.95 million acres	- up 16%
	38 bushels per acre	- up 4 bushels
Grain Sorghum	-- 121.8 million bushels	- down 20%
	2.03 million acres	- up 6%
	60 bushels per acre	- down 19 bushels
Dry Edible Beans	-- *2.58 million cwt.	- up 19%
	*150,000 acres	- up 11%
	1,720 pounds per acre	- up 120 pounds
Sugar Beets	-- *1.78 million tons	- up 22%
	85,000 acres	- up 17%
	*20.9 tons per acre	- up .7 ton
All Hay	-- 7.08 million tons	- down 7%
	3.7 million acres	- unchanged
	1.91 tons per acre	- down .15 ton

* New record high.

LIVESTOCK REVIEW

By Dennis Johnson

CATTLE

Nebraska farmers and ranchers had 6,950,000 all cattle and calves on hand January 1, 1981. This was a 9% increase from the previous year and the highest first of year inventory since 1974. Cattle on feed for the slaughter market on January 1, 1981 numbered 1.64 million, down 2% from a year earlier and 9% below the record high two years ago. Beef cow operators increased their herds for the first time since 1975. The number of beef cows that have calved were estimated at 2.07 million head, 6% above a year ago. The number of beef cow replacement heifers on hand January 1, 1981 reached 292,000, 1% above a year earlier.

The inventory of milk cows at the start of 1981 totaled 121,000 head, 1% above a year earlier and halted the steady decline that started in 1934. Milk production during 1980, at 1,315 million pounds, increased 4% from the previous year's output. Average yearly milk production per cow reached a record high 10,868 pounds and, for the fourth consecutive year, production surpassed 10,000 pounds per cow.

Although the all cattle numbers increased 9%, the total value of the inventory, at 3.1 billion dollars, fell 1% from the previous year. Average value per head dropped from $495 last year to $450 this year, reversing a six-year trend of higher values.

HOGS AND PIGS

Hogs and pigs on December 1, 1980 numbered 3.9 million head, down 6% from the record high a year ago and reversed a four-year trend of higher numbers. The total pig crop for 1980 was 6.29 million pigs saved from 855,000 sows and gilts for an average of 7.36 pigs per litter. The December-May crop of 3.31 million pigs was saved from 450,000 sows. The June-November period showed 2.98 million pigs saved from 405,000 sows.

The total value of the December 1, 1980 inventory, at 308.1 million dollars, moved up 23% from a year earlier. A decline in inventory was more than offset by a sharp increase in value per head. Average value per head rose from $60.50 in 1979 to $79.00 in 1980.

SHEEP AND LAMBS

Sheep producers had an inventory of 250,000 sheep and lambs on hand January 1, 1981, 19% above a year earlier. The inventory consisted of 150,000 stock sheep and 100,000 sheep on feed, up 25% and 11% respectively. The 1980 lamb crop, which consists of lambs born from October 1, 1979 through September 30, 1980 was 112,000, 24% above the 1979 crop. Wool production during 1980 totaled 1.7 million pounds, 10% more than a year earlier. Total value of wool produced in Nebraska reached $1.29 million dollars, up 9% and the highest since 1973.

POULTRY

Chickens in commercial and farm flocks as of December 1, 1980 numbered 4 million, up 2% from the previous year. An average of 3.59 million layers during the year produced 847 million eggs for the year ended December 1, 1980, compared to 802 million for the previous year.

Total value of the chicken inventory at 7.6 million dollars increased 7% from last year. Average value per bird moved up a dime from a year ago to $1.90.

Turkeys raised in Nebraska during 1980 totaled 789,000, up 21% from 1979.

RANK OF FIVE LEADING COUNTIES IN NUMBER OF ALL CATTLE AND ALL SHEEP, JANUARY 1, 1980; AND ALL HOGS, DECEMBER 1, 1979

RANK	ALL CATTLE		ALL HOGS		ALL SHEEP	
	County	Number	County	Number	County	Number
1	Cherry	350,000	Cuming	203,400	Scotts Bluff	25,800

PRICE REVIEW

By Jim Stepanich

The Nebraska Index of Prices Received by Farmers for 1980 averaged a record 254 (1967=100), 3% above 1979 and 23% higher than 1978. The Index was lowest in April at 229, peaked at 274 in October and closed the year at 267. During the year, record high prices were received for sheep, dairy cows, all milk, oats, baled hay and wool.

The 1980 Livestock and Livestock Products Price Index averaged 260 (1967=100), down 3% from 1979 but 19% above 1978. The index began the year at 259, dropped to a low of 238 in April and reached a high of 277 in August before closing the year at 258.

Average monthly cash prices for steers and heifers ranged from $62.80 per cwt. in April to $70.20 per cwt. in August. The average for the year was $66.70 per cwt., $2.00 below 1979 but $14.70 above 1978. The yearly average price for cows (excluding dairy herd replacements) was $45.80 per cwt., $4.20 below the 1979 average. Monthly average prices ranged from a high of $51.60 per cwt. in February to a low of $43.00 per cwt. in May. Calf prices averaged $78.70 per cwt., $9.70 below the 1979 average. A low of $68.00 per cwt. on the average was received in May, while a high of $89.70 was reached in February.

Prices received for all hogs averaged $38.10 per cwt. for the marketing year ending November 30, 1980. This was $3.80 below the average for 1979. Prices were lowest in April when the average price was $27.60 per cwt., the lowest monthly average since June 1974 and were the highest in October when the average prices climbed to $47.00 per cwt.

Lamb prices averaged $64.30 per cwt. for the year, $2.40 below 1979. The monthly average price ranged from a high of $68.40 per cwt. in July to a low of $54.40 per cwt. in December.

All milk sold to plants for 1980 averaged a yearly record high of $12.70 per cwt., $0.80 above 1979. July prices were lowest averaging $12.10 per cwt. while the highest average price was received in December at a record monthly average of $13.90 per cwt.

Producers received an average of 39.5¢ per dozen for eggs sold during the 1980 market year, a decline of 3.7¢ from the 1979 average. The market year started with prices averaging 48.1¢ per dozen in December 1979, then dropped rather sharply to a season low of 31.4¢ in May. Prices then climbed quickly and the marketing year ended with a season high 49.4¢ per dozen in November.

The Nebraska All Crops Price Index averaged 244 (1967=100), 13% above 1979 and the second highest average on record. Average monthly indexes hit a low of 215 in April, then continually climbed to a high of 283 in November and closed out the year at 281.

Nebraska wheat prices began the year averaging $3.73 per bushel, hit a low of $3.35 in April and climbed consistently to a high of $4.12 in November before closing the year at $4.01 per bushel. Average corn prices ranged from a low of $2.26 per bushel in March to a high of $3.12 per bushel in November. Oat prices began the year at $1.42 per bushel, dipped to a low of $1.33 in March and April, then finished the year on an upswing with an average high of $1.97 per bushel. Average prices for grain sorghum ranged from a low of $3.77 per cwt. in January to a high of $5.30 per cwt. in December. Soybean prices began the year averaging $5.86 and fell to a low of $5.28 in April before reaching a high of $7.86 in November. All baled hay began the year at $44.00 per ton, dipped to a low of $38.50 in June and finished the year at a high of $61.50 per ton. Dry edible bean prices varied from a low of $21.40 per cwt. in April to a high of $26.30 in December.

An Index for Prices Paid by Farmers is unavailable at the State level, so direct comparisons between income and expenses for Nebraska farmers cannot be made. However, at a National level, the average Index of Prices Paid by Farmers for All Commodities and Services, Interest, Taxes and Wage Rates in 1980 was 281 percent of the 1967 base year, 12% above a year earlier. This compares with the National average Index of Prices Received by Farmers of 246, 2% above the 1979 index.

(Income and Expenses are covered on pages 147-154.)

1/ Maintenance and bookkeeping combined with other agricultural workers. 2/ Insufficient data for this category. Data included in All Hired Farm Workers and in United States wage rates.

FARM INCOME

By Bill Dobbs

Cash receipts from farm marketings in Nebraska reached 6.4 billion dollars in 1980, up 7% from last year's previous record level. A new cash receipt record high was set for crops and livestock nearly equaled the 1979 record.

Livestock receipts accounted for 65% of the State's total receipts and totaled 3.9 billion dollars, 1% below last year's record. A new record high crop sales of just over 2.5 billion dollars showed a 22% increase over 1979, the previous record.

The Index of Prices Received for All Farm Products was record high as prices for most products exceeded many recent years.

Estimates of farm production expenses for 1980 in Nebraska were not available at this time. However, Nationally, the preliminary estimates for 1980 indicated that production expenses were up 11%. Generally, most costs associated with crop production and livestock raising and feeding were above a year earlier.

Nationally, cash receipts from farm marketings were forecast to reach 140.0 billion dollars during 1980, up 6% from the previous year. Receipts from livestock at 69.0 billion dollars were up 1% and crops 71.0 billion dollars increased 13%. Government payments, at 1.3 billion dollars, were down from 1.4 billion a year earlier.

A preliminary estimate of farm production expenses in the U.S. was set at 132.0 billion dollars for 1980, up 11% from 1979 and a new record high. The preliminary estimate of net farm income during 1980 reached 23.7 billion dollars, 12% below 1979.

GENERAL COMMENTS

By Bill Dobbs

Precipitation averaged 17.4 inches during 1980 in Nebraska, 32% and 8 inches below 1979. This was the third lowest average in the last twenty years and seventh smallest in forty years. Statewide, precipitation averaged 23% below the normal 22.7 inches. Dry early summer months and hot temperatures reduced most dryland crop yields and total crop output. Precipitation was heavier than normal during the early winter months, August and October and below in all other months.

Farm numbers in Nebraska totaled 65,000 during 1980, unchanged from 1979. Average farm size held steady at 734 acres. New acreage being put under irrigation at 250,000 acres equaled last year's increase. Total acres with facilities for possible irrigation reached 7.2 million acres compared with 6.95 million in 1979 and 6.7 in 1978. There were 1,978 wells registered during 1980, slightly less than the 1,990 registered in 1979, but much lower than annual registrations of over 5,000 wells for the period 1975-1977.

Fertilizer sold in Nebraska from July 1, 1979 - June 30, 1980 totaled 2.0 million tons, up nearly 7% from a year earlier and establishes a new record high annual consumption for the State. About 96% of the State's corn acres received some fertilizer, up 1% from a year earlier. The rate of fertilizer applied per acre of sample corn fields was much lower than a year ago for nitrogen (N), potash (K_2O), and phosphate (P_2O_5). About 57% of the wheat acreage was fertilized during 1980, unchanged from last year. Rate of application per acre declined for nitrogens, but phosphates and potash increased. Soybeans received sharply more fertilizer per acre and about 28% of the State's acreage received fertilizer, up from 20% last year. Estimates of other crops are not available.

Sales of retail commercial feeds in Nebraska totaled 1.8 million tons during the July 1, 1979 to June 30, 1980 period, down nearly 7% from a year earlier.

Nebraska's share of agricultural commodities exported during 1980 totaled $1.9 billion, up 30% from a year earlier. Feed grains and products accounted for 58% of the total compared with 52% last year.

USDA CROP REPORTING BOARD

REPORTS TO BE ISSUED - 1981

Report	Frequency	Approximate Date of Publication*
GENERAL REPORTS:		
Farm Report (Crop Forecast)	Monthly	11th of month--May-November
Weather, Crops, and Livestock	Weekly	Mondays, April-November; 5th of month, Dec.-March
REPORTS ON CROPS:		
Winter Wheat Seedings	Annually	December 22
Prospective Plantings	Annually	March 19
June Acreage	Annually	June 29
Summary of Small Grains	Annually	December 22
Summary of Row Crops	Annually	January 14
Annual Crop Summary and Value of Production	Annually	January 22
Dry Beans	Monthly	11th of month--Aug.-Dec.
Potato Stocks	Seasonally	15th of month--Dec.-April
Stocks of Grains	Quarterly	24th of month--Jan.,Apr., June, Oct.
Popcorn	Semi-Annually	January and June
Seed Crops	Semi-Annually	May and October
Wheat Varieties	Annually	February
Soybean Varieties	Annually	February
Millet	Annually	January 22
REPORTS ON LIVESTOCK, DAIRY, POULTRY, AND LIVESTOCK PRODUCTS:		
Cattle Inventory and Calf Crop	Semi-Annually	January 30 and July 27
Cattle and Calves on Feed	Monthly	19th Jan., Apr., July, Oct.; 13th other months
Hog Inventory and Pig Crop	Quarterly	21st Mar., June, Sept., Dec.
Sheep Inventory and Lamb Crop	Annually	January 27
Sheep on Feed	Seasonally	18th Jan., March and Nov.
Lamb Crop	Semi-Annually	January and July
Wool Crop	Semi-Annually	March 27 and July 21
Livestock Slaughter	Monthly	23rd of following month
Poultry (Egg Production)	Monthly	21st of month
Honey and Bees	Annually	January 15
Meat Animals, Marketings and Cash Receipts	Annually	April 1
Milk Cows and Milk Production	Quarterly	12th Feb., Apr., July, Oct.
Milk Production, Disposition and Income	Annually	May 22
Manufactured Dairy Products	Annually	June 1
Poultry Production, Disposition and Income	Annually	April 6
PRICE REPORTS:		
Agricultural Prices	Monthly	30th of month
Farm Income	Semi-Annually	March and September
MISCELLANEOUS REPORTS:		
Farms and Farm Land	Annually	December 28
Farm Real Estate Values	Annually	July
Farm Labor and Wage Rates	Quarterly	23rd of Feb., May, Aug., Nov.
COUNTY ESTIMATES:		
Crop Estimates by County	Annually	May
Livestock Estimates by County	Annually	May
Nebraska Feed Grains	Annually	July

* Statistics in the National program are released in Washington, D.C. and locally according to strict predetermined dates. Nebraska press releases, radio tapes and news releases are prepared for most reports as soon as possible after the National release. See the inside front cover for a listing of Nebraska releases available.

You may call the FARMERS' NEWSLINE -- 900-976-0404 -- for the latest U.S. and world crop, livestock, export, and economic news from USDA. A 60-second summary is available to you 7 days a week 24 hours a day. Your cost is 50 cents per call. The news items are updated at 4 p.m., Washington, D.C. time.
